*"I've been taking it for 15+ years. I buy it for me, my kids, grandkids, and always like to have it handy. I DO recommend it to many people every week. It truly has been a life saver to me over the years." — JS*

*"Hello Thomas, it worked miracles for my lungs and heart. For years I had serious health issues with my lungs and breathing while sleeping from all the years of smoking. All of that went away in just a few days." — Carlos*

*"Prior to my using Manna, I would get sick with chest infections, colds, the flu, etc. at a minimum 4-6 times a year. After using manna sachet I get sick MAYBE once a year, and usually it signals that it's been a year since I used the sachets." — John*

*"For the record, I started this product when it first came out. Before I started this stuff I caught a cold very easily; I spent half my life with a cold. In the 20+ years I've been taking it, I can count on one hand the times I've caught a minor bug of some kind, and I've never been really sick with anything. It just works, and as long as it's available I'll keep taking it." — Larry*

*"After 2 1/2 years+ now, since I took 8 sachets. I'm very healthy, not even ever had a cold, cough nor fever. I feel great... Not everyone has the guts to take an unknown substance from a website and test it like I have. I've had the hardest time ever trying to help others. They all believe in modern medicine. No guts to believe!!! I believe!!!!" — Robert B.*
